SUMMARY

A Computer Science graduate with practical experience in Full Stack Web Development. Successfully built an Event Management System and REST APIs during an internship at PrepInsta Technologies. Good Expertise in the MERN stack, C++ and Java. Seeking to apply my technical expertise and creativity to a forward-thinking organization.

EDUCATION

Bachelor of Engineering - CSE,
SCSVMV University, CGPA 8.49

10/2021 – 05/2025

PROJECTS

College Management System [🔗](#)

Engineered a fully responsive College ERP web application using the **MERN** stack. Implemented comprehensive **CRUD** operations and modules for attendance and result publishing with a performance-optimized, user-friendly interface.

Payment Portal [🔗](#)

Developed a responsive payment portal simulation using **MongoDB, Express.js, EJS, CSS, and HTML**. Architected with user authentication, QR code payments, and receipt generation.

Wanderlust [🔗](#)

Developed a full-stack vacation rental platform simulation using **Node.js, Express.js, and MongoDB** for robust backend architecture. Implemented SSR with **EJS** to create a dynamic and user-friendly interface.

CERTIFICATIONS & ACHIEVEMENTS

Certifications: [🔗](#) CSS, JavaScript (HackerRank), React.js (Coursera), Java (Udemy), C/C++ (Internshala).

Achievements: [🔗](#) Earned **Oracle Java Explorer badge** from Oracle Java Foundations. | Presented The **Vishwavidya Award** by **Sri Kanchi Kamakoti Peetam, Kanchipuram** for Learning **Krishna Yajurveda** and secured **good CGPA** in Engineering simultaneously.

EXPERIENCE

PrepInsta Technologies, Web Developer Intern [🔗](#)

01/2024 – 04/2024 | Remote

Developed a full-stack Event Management System and dynamic portfolio platforms using HTML, CSS, JavaScript & React, and backend frameworks. Engineered custom RESTful APIs to ensure seamless data retrieval while creating responsive, cross-platform user interfaces. Applied optimized coding practices to enhance user experience and streamline application performance. Recognized for good developing skills and project management capabilities, earning a Letter of Recommendation for outstanding dedication.

SKILLS

Languages: C++, Java, HTML, CSS, JavaScript, MySQL, MongoDB.

Frameworks/Libraries: React.js, Express.js (RESTful APIs), Node.js, Bootstrap CSS, Tailwind CSS.

Soft Skills: Active Listening, Adaptability, Teamwork, Continuous Learning,
