SUMMARY

Software Developer skilled in MERN stack, Java, C++, SQL, and networking basics. Good at problem-solving, writing clean code, and database management.

SKILLS

Languages: C/C++, Java, Python

Frontend: HTML, CSS, JavaScript

Databases: Oracle SQL, MySQL, MongoDB

Libraries/Frameworks: React.js, Node.js, Bootstrap CSS

EXPERIENCE

Java Developer Intern [↗](#)

Aug 2025 – Sep 2025

Elevate Labs

Remote

- Applied Core Java and Object-Oriented Programming (OOP) principles to design clean, scalable backend modules.
- Collaborated in cross-functional team sprints to improve software functionality and streamline code maintainability.

Growth Manager [↗](#)

May 2024 – Dec 2024

PrepInsta Technologies

Remote

- Managed digital marketing campaigns across social media channels, boosting overall brand reach and user engagement.
- Coordinated project workflows and team objectives, consistently meeting key delivery milestones ahead of schedule.

Web Developer Intern [↗](#)

Jan 2024 – Mar 2024

PrepInsta Technologies

Remote

- Developed responsive user interface components using JavaScript, HTML, and CSS to enhance UI consistency.
- Improved web performance using code-splitting techniques and maintained version control workflows with Git and GitHub.

PROJECTS

DocMind - Mutli Tenant AI Document Analyzer & RAG Platform [↗](#) | **Tools Used:** *Next.js, Prisma, Clerk*

- Built Multi-tenant AI document platform for uploading and analyzing documents. Users can upload files and ask continuous follow-up questions about their documents in real time.
- It extracts document text to power context-grounded, multi-turn AI chat using Google Gemini.

LearnSpaceAI - AI-Powered Learning Management Platform [↗](#) | **Tools Used:** *Next.js, Supabase*

- Built a personalized study platform that dynamically generates structured learning path roadmaps, interactive practice quizzes, and real-time AI study assistance based on active user topics.

Wanderlust - A Vacation rental simulation [↗](#) | **Tools Used:** *Node.js, Express.js, MongoDB, EJS*

- Built a full-stack booking platform featuring property listings, reviews, and geolocation mapping.
- Integrated Cloudinary CDN and Passport.js, reducing page load times by 40% and keeping latencies under 50 ms.

CERTIFICATIONS [↗](#)

- **Meta React Specialization Certificate – Coursera (2025):** Advanced React apps with reusable components, hooks, API data handling, and testing.
- **Technical Certifications:** Java (Udemy & Infosys Springboard), CSS & JS (HackerRank), C/C++ (Internshala)
- **Awards/Badges:** Java Explorer Badge

EDUCATION

B.E Computer Science & Engineering

Graduated: 2025

Sri Chandrasekharendra Saraswathi Viswa Mahavidyalaya (SCSVMV University)

CGPA: 8.49 / 10
